## Education

### Chitkara University

Bachelor of Engineering in Computer Science and Engineering (CGPA - 9.86)

August 2021 - July 2025

Punjab, India

### Swami Uma Bharti Public School

Senior Secondary Examination CBSE - Class XII (Percentage of 95.6)

August 2020 - July 2021

Haryana, India

## Projects

FeedBuzz | React.js , Node.js , Express.js , MongoDB | GitHub | Deployed

February 2024

- Designed and implemented a full-stack social media platform with modern UI and other interesting features.
- Comprehensive user management: Registration, login, profile editing, user connections.
- Robust security measures: Data **encryption**, authentication with **JWT** tokens, content moderation tools.

C Library | GitHub

September 2023

- Developed an agile C library containing **8** sorting and searching algorithms, empowering users to tackle diverse application needs.
- Generic and **Customizable**: Enabled **80%** of the algorithms to work with various data types and specific requirements effortlessly.
- Reduced** development time by an average of **25%** for users who leveraged customization features, eliminating the need to rewrite algorithms from scratch.

Starbucks Website | HTML , CSS , JavaScript | GitHub | Deployed

October 2023

- Modern UI Design: The Starbucks website project features Responsive and modern UI which **increased 50%** traffic.
- Cart with Local Storage: Cart option has been implemented local storage **saving 50%** of user's time.

Developer Voyage | React.js , Node.js , Express.js , MongoDB | GitHub

January 2024

- Built an full-stack engaging blog platform where users can share their thoughts and experiences.
- Implemented secure user **authentication** with robust registration and login features.
- Increased user engagement by 150% through intuitive content creation and publishing experience.

## Technical Skills

Languages: C++, Java, HTML/CSS, JavaScript

Technologies/Frameworks/Libraries: Linux, SQL, Git, Bootstrap, jQuery, React.js , Node.js, Express.js & MongoDB

## Achievements

- Ranked **18th** in University at CodeKaze by Coding Ninjas with 1000+ participants. (2023)
- Finalist** in Phosphenes an Industry Level Hackathon with more than 50 teams. (2023)
- Solved more than **700+ problems** across different coding platforms.

## Profile Links

- Leetcode** - jyotidev [more than 250 problems solved]
- GeeksforGeeks** - jjyotichander79 [more than 180 problems solved]
- CodingNinjas** - Jyoti [more than 170 problems solved]
- Codechef** - jyotidev\_31 [more than 100 problems solved]

## Certifications

- Mastering Data Structures and Algorithms using C & C++ - Udemy.
- Red Hat Application Development 1: Programming in Java
- JavaScript Essentials 1 (JSE) - Cisco Networking Academy
